90%

PROJECTS

SERVICE TICKET BOOKING APP

Developed a Service Booking System using Java and JDBC with booking and service management features. Integrated database connectivity, applied OOP concepts, and designed a user-friendly interface for efficient customer handling.

BASIC E-COMMERCE WEBSITE FOR MALE FASHIONS (INTERNSHIP)

Created a simple e-commerce platform for Male fashion named "Kaira online shopping" with product listing, Cart, and Checkout functionalities. Added basic admin controls for managing Products, Orders, Shipping, Contact, Account, Login & register (only Frontend).
